

Hospital Medicine

Description

The goal of the Internal Medicine rotation is to provide learning opportunities that will enable residents to develop skills required for the care the hospitalized adult patient.

Objectives

While on this rotation, residents will develop the following competencies:

Family Medicine Expert

Recognizes and respond appropriately to urgent and emergent conditions in adults (ADU3)

Performs patient-centered clinical assessment and manages adults presenting with common (key) conditions (ADU4)

Demonstrates an effective approach to advance care planning (PAL2)

Performs family medicine specialty-appropriate procedures to meet the needs of individual patients (ME5)

Communication

Elicits and synthesizes accurate and relevant information from, and perspectives of, patients and their families (CM2)

Shares health care information and plans with patients and their families (CM3)

Documents and shares written and electronic information about the medical encounter to optimize clinical decision-making, patient safety, confidentiality, and privacy (CM5)

Collaborator

Works effectively with others in a collaborative team model (CL1)

Cultivates and maintains positive working environments through promoting understanding, managing differences, minimizing misunderstandings and mitigating conflicts (CL2)

Recognizes and facilitates the necessary transitions in care with other colleagues in the health professions, including but not limited to shared care, and/or hand over care to enable continuity and safety (CL3)

Leader/Manager

Engages in the stewardship of health care resources (LD2)

Health Advocate

Respond to an individual patient's health needs by advocating with the patient within and beyond the clinical environment (HA1)

Scholar

Integrates best available evidence into practice with consideration given to context, epidemiology of disease, multi-morbidity, and complexity of patients (SC2)

Professional

Demonstrates a commitment to patients through clinical excellence and high ethical standards (PR1)

Demonstrates a commitment to society by recognizing and responding to societal expectations in health care (PR2)

Demonstrates a commitment to reflective practice (PR5)

Entrustable Professional Activities

F3: Facilitate and manage care transitions

C1: Assess, manage, and follow up adults presenting with undifferentiated symptoms and common (key) conditions

C2: Manage and follow up adults with common chronic conditions and multiple comorbidities

C6. Provide palliative and end-of-life care

C7. Perform common family medicine procedures

C8. Provide expert advice and obtains consultation for patients

C10: Determine when a patient requires admission and in-patient hospital care

C11. Assess and appropriately manage medical patients in hospital

C12. Recognize and provide initial management of medically unstable patients in the hospital setting

Evaluation

- Field notes
- In-training Assessment Report (ITAR)
