Family Medicine Kildonan Medical Centre
Max Rady College of Medicine,
Rady Faculty of Health Sciences,
University of Manitoba

The Hidden Curriculum affects learning. Intentionally or not, what is meant to be taught to learners is undermined by values and norms they experience in their training. How do you fit into this picture?

In this interactive session, you will explore what Hidden Curriculum is and how you might address it.

Learning Objectives:

1. How hidden curriculum affects the learning environment
2. Assessing your educational context for examples of hidden curriculum
3. Strategies to address or mitigate the hidden curriculum

**This event was co-developed with the CPD Medicine Program, University of Manitoba and was planned to achieve scientific integrity, objectivity and balance.*

This one-credit-per-hour Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been approved by the CPD Medicine Program, University of Manitoba for up to 1.0 Mainpro+ credits. Participants should only claim credit for the actual number of hours attended. The University of Manitoba CPD Medicine Program is fully accredited by the Committee on Accreditation of Continuing Medical Education (CACME).
