

PEARLS 2SR (Systematic Review) Formative Feedback and Documentation of Completion.

Resident: _____ Faculty Supervisor: _____ Date: _____

Did the resident adequately address the questions in the worksheet? Yes No

Has a randomized controlled trial been identified for PEARLS 3RCT? Yes No

In the upcoming PEARLS 4SYN will the resident be ready to address the following questions as they relate to the reviewed systematic review?

1. Which systematic review did you select and why?
2. Compare the intervention being considered to the guideline recommendation (if different) and the systematic review PICO.
3. Did the systematic review give you confidence that you have the best available evidence? Explain why.
4. What was the magnitude of benefit of the intervention and the confidence interval in the study populations? (Not all systematic reviews can answer this question.)
5. Does the guideline recommendation reasonably interpret the findings of the systematic review?

Yes No

Advice on how to use this PEARLS 2SR in PEARLS 4SYN (Such as strengths and limitations of the SR.)

RCT identified for PEARLS 3RCT:
