

POSTGRADUATE MEDICAL EDUCATION (PGME)

# Core Curriculum Path to Completion

All residents in medical training programs must complete their PGME Core Curriculum requirements **by June 1 of their first year of residency**. The courses are listed in Table 1.

Practice Management is a mandatory course for all residents in medical training programs and is required in the final years of residency. It is run as two three-hour workshops; both Part 1 and Part 2 must be completed.

## Information specific to Subspecialty Programs:

- Residents who join the University of Manitoba for **subspecialty programs** must only complete TDP 0 (annually) and the Teaching Development Program (TDP).
- If evidence of completion of another teaching course is provided, they will not be required to complete TDP
- If programs have opted into Resource Stewardship Part B, subspecialty residents must also complete this course (see Table 2 below)
- The following Subspecialty programs have opted to make **Practice Management** mandatory:
  - » GI Medicine, Pediatric Infectious Disease, Hematology, Developmental Pediatrics, Pediatric Hematology/Oncology, Pediatric Clinical Immunology and Allergy, Respiriology, Geriatric Medicine
  - » Residents in other Subspecialty programs are encouraged to attend the Practice Management sessions and will be provided with registration information

**Table 1.** The following courses are mandatory for all PGY-1 residents.

\*Program exemptions are noted:

Mandatory Sessions	Program Exemptions
Intro to Teaching Medical Students (TDP 0) – Online course. Must be completed <b>annually</b>	
Teaching Development Program for Residents (TDP) - Online course	
Conflict Management - Online course	
Foundations of Professionalism - Online course	
Professional Boundaries Online - Course	
Resource Stewardship A Online - Course	Medical Microbiology, Medical Genetics, Pediatrics
CMPA Seminar Online - Live course (preregistration required)	Medical Microbiology, Anatomical Pathology, IMG, Medical Genetics, Clinical Biochemistry
Drug Prescribing Safety - Online course	Clinical Biochemistry

\*Trainees in Clinical Psychology, Dental and Diagnostic and Surgical Sciences, Pediatric Dentistry, Clinical Investigator Program and Clinical Microbiology are exempt from ALL courses.

\*Trainees in Genetic and Genomic Diagnostics (Post PhD) must complete Conflict Management and Resource Stewardship Part A.

**Table 2.** The following courses are required only for the noted programs:

Course	Program
Diversity: Offering Culturally-Proficient care - Online Course	Internal Medicine, Ophthalmology, General Surgery, Urology, Clinical Biochemistry, Endocrinology, Psychiatry
Nightmares Boot Camp - In Person Simulation course	Anaesthesia, Emergency, Surgical Foundations, Obstetrics and Gynecology, Internal Medicine, Neurology
Resource Stewardship B - Project	Gastroenterology, Geriatric Medicine

## How do I complete these courses?

All courses can be accessed on **UM Learn** with the exception of the CMPA Seminar and Practice Management course which are run live online and the Nightmares Boot camp which takes place in person in the Clinical Lab and Simulation Facility (CLSF).

PGME will provide dates for registration for the CMPA seminar and Practice Management sessions.

**Residents who do not complete the mandatory core curriculum requirements (ie. all courses except Practice Management and future TDPO sessions as TDPO is an annual requirement) will not be allowed to commence any of their PGY-2 rotations and will be placed on Remediation for a breach of professionalism until core courses are successfully completed.**

## Please check:

Your required core curriculum courses should be displayed on your Entrada dashboard and you should be registered for your core curriculum courses as indicated above, in UM Learn.

If there is an error in your Entrada display or your registered courses in UM Learn, please email: [pgme@umanitoba.ca](mailto:pgme@umanitoba.ca) or Dr. Teresa Wawrykow, PGME Academic Curriculum Director: [teresa.wawrykow@umanitoba.ca](mailto:teresa.wawrykow@umanitoba.ca).
